

AGRO SHOW 2026

This year, for the 27th time, we will meet at one of the largest agricultural exhibitions in Europe. The International Agricultural Exhibition AGRO SHOW is the time when Bednary, near Poznań, becomes the centre of Polish agriculture for three days. This year's outdoor expo edition takes place on 18-20 September 2026. The event is organised by the Polish Chamber of Commerce of Agricultural Machinery and Facilities and, for over 25 years, has attracted tens of thousands of visitors as well as hundreds of leading exhibitors from around the world presenting the latest agricultural equipment and machinery.

The AGRO SHOW exhibition provides a space conducive both to the presentation of agricultural machinery and to the development of event participants. Farmers have the opportunity to exchange experiences and seek new solutions for their farms, while companies effectively promote their products and establish business relationships. Among the exhibitors are, among others, manufacturers and importers of machinery, fertilisers and feed, as well as suppliers of parts and services for the agricultural sector. The participation of companies from numerous countries in Europe and Asia further underscores the international character of the trade fair.

An important element of the programme is the dynamic demonstrations of agricultural machinery carried out in the demonstration fields. Practical presentations allow visitors to observe the equipment under real working conditions, which makes it possible to better assess its capabilities and operational efficiency. This year, the main theme of the demonstrations will be sprayers and loaders. Tractor Pulling Poland shows will also be visible in the demonstration fields. The demonstrations will take place every day of the exhibition.

On the first day of the exhibition, the final of the prestigious "Student na Medal" (Medal-Worthy Student) competition will take place. From among students studying in mechanisation-related fields across Poland, the top ten, selected via a technical knowledge test, will compete for the title of the best student. The final ten represent universities from Poznań, Krakow, Lublin, Gdynia, and Bydgoszcz.

Both the competition and other key elements during the exhibition will take place in the heart of AGRO SHOW, called AGRO ARENA. All key areas related to business, education, and industry events will be concentrated in one place, which will significantly facilitate access to the opportunities offered and improve communication between participants.

Tickets for the exhibition will be available both on the organiser's website and at sales points at the entrances to the event site. We encourage online purchase, which allows you to benefit from a lower price. Subsidised transport is provided for organised groups, while free parking is available for those arriving by car.

Up-to-date information about the event will be published on an ongoing basis on the official AGRO SHOW website and on the organiser's social media. The exhibition will be open from Friday to Sunday, from 9:00 a.m. to 5:00 p.m.
